

# High Friction Pacing Rolls

By preventing web slippage through the press, RotoMetrics unique High Friction Pacing Rolls are the ideal tool to help solve a number of web tension and pacing problems when converting paper, film or other materials.

The first of their kind in the industry, RotoMetrics High Friction Pacing Rolls are finished with a proprietary, high friction coating designed to provide superior grip on the web. RotoMetrics High Friction Pacing Rolls also assist in controlling part size and registration by providing consistent infeed and/or exit pacing of the web.

#### Features:

- Unique high friction coating—an industry first

#### Advantages:

- Provides superior grip on web
- Prevents slippage through the press
- Controls part size and registration

For more information about RotoMetrics High Friction Pacing Rolls and our complete line of rotary tooling, or for answers to your technical questions, contact your RotoMetrics sales representative.
